

CSWC Operational Period Summary

1800 February 19 to 0600 February 20 2014

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Situation Summary

- SOC / Inland REOC remains activated in support of 2014 Drought
- 6 to 10 day forecast indicates above normal precipitation in northern half of the state.
- No significant Weather Watches or Warnings are in effect
- Natural Gas Outage - Needles, San Bernardino County
 - Southwest Gas reported that customer turn-offs completed on 1800 hours on 2/19/14 and relights began at that time
 - There is no estimated time of when service will be fully restored
 - No emergency management issues have been reported at this time

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

A cooler northwest flow will give way to a warming trend through the weekend as dry high pressure returns. Expect some broken clouds on Thursday otherwise any light shower activity will stay north of the Oregon border.

San Francisco Weather:

A ridge of high pressure will maintain dry weather and warmer than normal temperatures into early next week. A weather pattern change is likely to occur by the middle of next week which is expected to result in several days of wet and possibly windy weather.

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Dry and mild conditions are expected through Tuesday followed by a change to a wetter weather pattern towards the middle of next week.

Hanford Weather:

Mild and dry conditions expected through early next week. A weather system is expected late in the week bringing a chance of showers by Wednesday night.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

It will be windy and warmer today. The winds will diminish Friday but the warming trend will continue. A slight cooling trend will begin over the weekend and the marine layer will start to reform. Expect cooler and cloudier conditions for the beginning of next week.

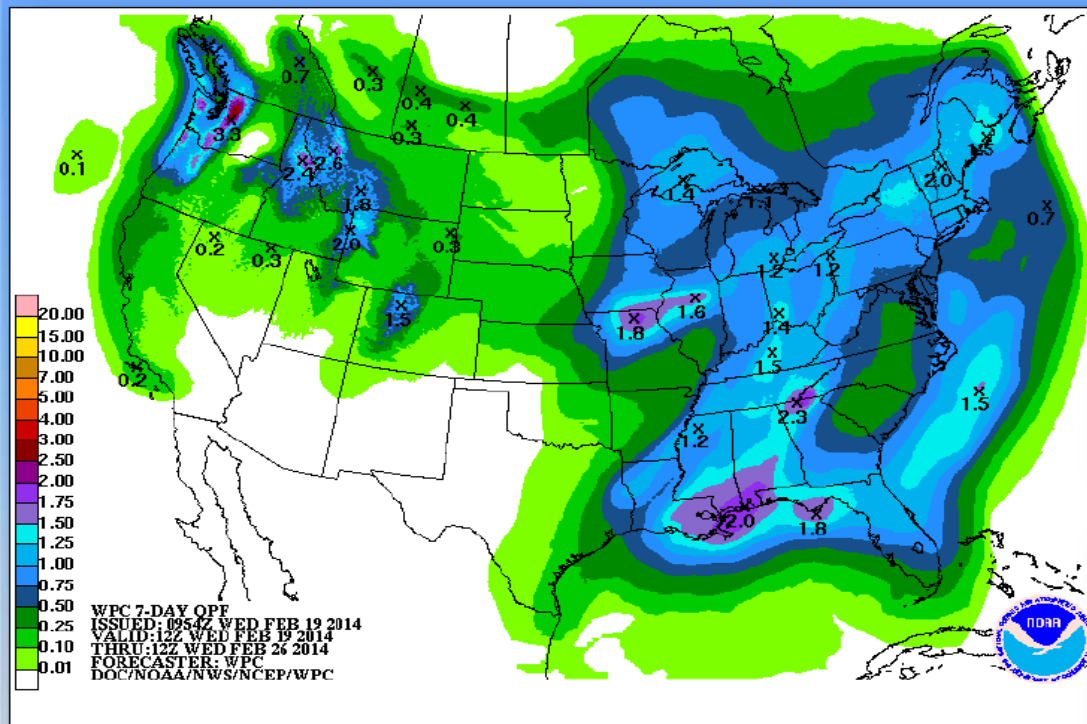

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Gusty northeast to east winds possible along the coastal slopes as well as through and below the passes and canyons. Dry and warmer conditions will develop and prevail through Friday. A gradual cooling trend will develop for this weekend and most of next week

Southeast California Weather:

Generally quiet weather with a warming trend can be expected through at least Tuesday of next week. There are some hints of a wet pattern developing late next week and into the weekend.

Precipitation Forecast

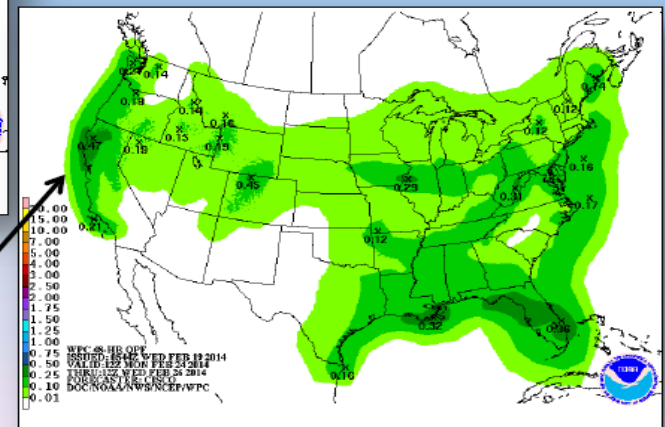

Days 1-7

Precipitation threat returns to CA in the Day 6-7 time period with the focus in the North

Days 4-5

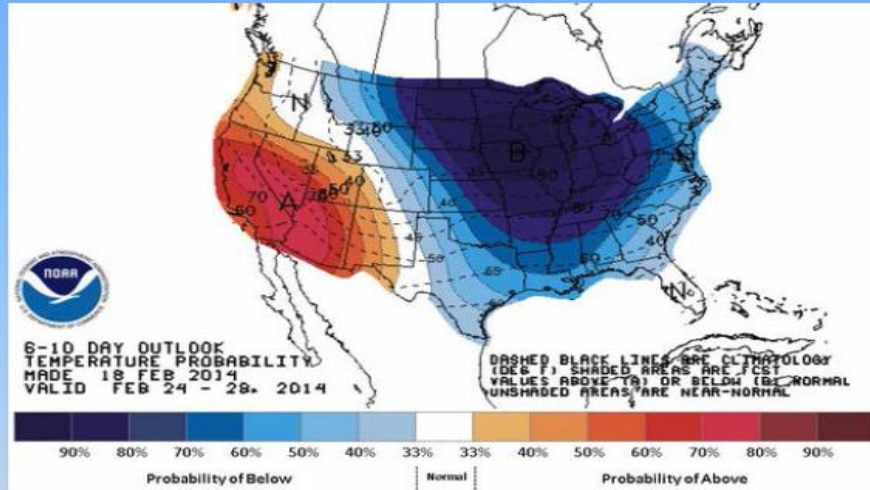

Days 6-7

W Wind

H Hot and Dry

⚡ Lightning

Weather

A weather system moved rapidly across North Ops overnight with some light precipitation. That system will soon exit the region after some lingering morning showers in the eastern portion of the Geographic Area. Over the next few days high pressure will gradually take over the region's weather pattern. Conditions are expected to be dry well into next week. There will be a few periods of relatively moderate north/offshore winds, but mostly winds will be NW and not have as much drying power as previously expected. Temperatures will become on the order of 8-12 degrees above seasonal normal for the warmer inland areas. There are indications that more wet weather may arrive late next week, but confidence in that is low at this time.

Fuels/Fire Potential

Fuels in all PSAs will be in the **Moist** category throughout the 7-day period in spite of some drying under the high pressure and some periods of north/off shore winds. For prescribed burning, dispersion conditions will be somewhat variable this week, but trending toward less active dispersion overall this weekend into early next week.

High Risk Events

Weather

Strong winds today and tonight

A dissipating trough will generate gusty winds over many areas today, especially during the afternoon hours. **Strong north winds of 25-40 mph with gusts over 50 mph will be possible today and tonight across Santa Barbara County, in northern Los Angeles County near the I-5 Corridor and near the Cajon Pass. In addition, strong west and northwest winds will occur today across the Kern County Mountains northward into the Sierras where similar wind speeds will be possible.** Expect slightly cooler readings over most areas today, despite much more afternoon sunshine. The north winds will decrease late tonight, but some northeasterly offshore winds of 15-25 mph will be possible over portions of Southern California early Thursday morning. These winds should decrease by Thursday afternoon. Much warmer temperatures will return to Southern California and high temperatures will be close to 80 degrees Thursday across some of the inland valleys. Friday and Saturday may be slightly cooler due to a lack of offshore flow and high cloudiness, but by Sunday and Monday, look for high temperatures to be 10-15 degrees above normal once again. Long range models indicate a storm system may arrive around the 27th which may finally bring some wetting rains to much of the area.

Fuels/Fire Potential

Large fire potential will be elevated over the windy areas during the next 36 hours. ERC values have increased and are now close to values which were seen in January prior to the cooler weather a week ago. Very rapid rates of spread and long range spotting are likely if a start occurred in some of the windier passes through Thursday morning.

CAL OES ACTIVATIONS

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily. The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed. The Southern REOCs is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is 0800-1700 hours.

SIGNIFICANT EVENTS/ACTIVITY

Cal EOC Incident – 2014 Drought (No change)

Situational Summary:

- The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State for several months. Negative economic impacts will also result. The Governor has established a Drought Task Force to prioritize State actions needed to address these conditions. Furthermore, on January 17, 2014, Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for these drought conditions. The State Operations Center (SOC) is activated to implement objectives in support of the Governor's priorities.

Situational Summary: (Cont.)

- As a result of the drought DWR has informed the customers of the State Water Project (SWP) that deliveries in 2014 will be discontinued if current dry conditions persist. Deliveries to agricultural districts with long-standing water rights in the Sacramento Valley may be cut 50 percent (the maximum permitted by contract) depending upon future snow survey results. Storage in key reservoirs now is lower than at this time in 1977, one of the two previous driest water years on record. While additional winter storms may provide a limited boost to reservoir storage and water deliveries, it would need to rain and snow heavily every other day from now until May to get us back to average annual rain and snowfall. The allocation may change depending on future storm events.

Cal EOC Incident – 2014 Drought (cont.)

Current Conditions:

Recent Precipitation: Very little precipitation fell in California over the last week. Precipitation totals (in inches) for the 24 hour period February 19 to February 20 are below:

Precipitation Totals (inches)	2/19 – 2/20/2014 24 hour total
Folsom Dam: 0.00"	Pollack Pines: 0.00"
Fresno: 0.00"	Redding: 0.00"
Hetch Hetchy Reservoir: 0.00"	Sacramento: 0.00"
Los Angeles: 0.00"	Shasta Dam: 0.00"
Modesto: 0.00"	Willits: 0.00"
Oroville: 0.00"	

Cal EOC Incident – 2014 Drought (cont.)

Current Conditions:

While Northern California received its largest rainstorm in 14 months in mid February, the storm had minimal effect on California's drought conditions and reservoirs' water levels remained largely unchanged.

- **Near-term Outlook for Precipitation:** Dry weather is expected across most of California this week, with a high-pressure front building towards the end of the week that will bring above normal daytime temperatures. The 6 to 10 day forecast indicates above normal precipitation in northern half of the state.

** Heavy rain and snow would have to fall throughout California very frequently from now until May to reach average annual rain and snowfall. Even with such precipitation, California would remain in drought conditions, due to low supplies from the two previous dry years.**

Inland Region - The Drought Coordination and Briefing call for Operational Areas, Native American Tribes and the Governor's Office of Emergency Services Inland Region REOC continues to be held at 1100 hours each Monday.

Drought Meetings

Inland Region

The Drought Coordination and Briefing call for Operational Areas, Native American Tribes and the Governor's Office of Emergency Services Inland Region REOC continues to be held at 1100 hours each Monday.

- 02/18/14 Butte County - The Inland Region Administrator and Inland staff participated in the Butte County Drought Task Force meeting in Oroville and the CDFA/USDA drought forum in Palo Cedro, in a continuing effort to gather information on the drought emergency and related impacts.
- 02/18/14 Stanislaus County - The Inland Region Field ESC attended the OA first Drought Task Force meeting on Tuesday February 18, 2014. There was good participation from water agencies, agricultural agencies, cities, and county departments. Information was shared and meetings will continue.
- 02/18/14 Madera and Stanislaus Counties - Inland Region staff participated in Drought Task Force meetings. Relevant updates have been posted to Cal EOC.

SOUTHERN CALIFORNIA SIGNIFICANT ACTIVITY

Natural Gas Outage Needles, San Bernardino County 2/19/14 at 0846 hours

- Caused by a valve being turned off
- City and County are not activated
- Approximately 4,912 residents affected including the Fort Mojave Indian Tribe
- Southwest Gas is on-scene bringing each house back on-line. No ETR.
- No hospital issues; no AFN issues
- Cal OES Southern Region remains activated at Level 1, Duty officer status.

Update 2/19/14 at 2014 hours:

- Southwest Gas reported that customer turn-offs completed on 1800 hours on 2/19/14 and relights began at that time.
- There is no estimated time of when service will be fully restored.
- No emergency management issues have been reported at this time.

CAL OES OPEN MISSIONS

Non-Incident Related Missions

2014-SOC-2111 Mission is to test the Cascadia Subduction Zone (CSZ) air bridge concept by air transporting 7 passengers from OES and 1 CANG logistics planner on 13 May 2014 from Mather to the State Staging Area (SA) in Redding, to one POD in Del Norte and one POD in Humboldt, to the Redding State SA, and return to Mather. Passengers will discuss actions at the Redding SA and at each OA POD while they are at each location. The air bridge is a critical component to CSZ response and recovery. It is imperative this concept is tested to ensure response teams can be successfully transported into the effected region and the affected Operational Areas' are able to receive aircraft at designated PODs.

2014-LAW-2069 Solano County Sheriff's Department is requesting California National Guard (CNG) tents to support classes and vendor displays at SAREX 2014 (A joint coordination exercise) scheduled for 9/05-07/2014 in Napa County. Setup of requested resources will begin on 9/04/14 and tear down will occur on 9/08. The exact scope of work will be determined as the planning cycle continues. There will also be a request for communications support which may be a combination of CNG and Cal OES Telecommunications resources. Mission number pulled to allow CNG to begin determining what assets may be available to assist. At this time the specifics of the request are deemed "to be determined" (TBD).

Non-Incident Related Missions (Cont.)

2014-LAW-2163

Current: 2/15/14 - Mission anticipated to last until 2/25/14.

Situation: The CNG's 95th CST will assist the Dept. of State's Diplomatic Security Detail with planning and executing Joint Hazard Assessment Team (JHAT) Operations for a foreign dignitary's scheduled appearances.

2013-LAW-1797

Current: The search was scheduled to resume on 2/18/2014.

Situation: Butte County has requested this mission re-opened as they will resume the search for a possible homicide victim. The search will resume with assistance from the Alameda County Sheriff's Department who will be providing an underwater Remote Operated Vessel (ROV) with video and sonar capabilities to search areas of Lake Oroville. Alameda County and Butte County are coordinating mission requirements and will advise on final details regarding deployment of teams to the area.

2014-LAW-2235 On 2/19/14, Tulare County Sheriff's requested resources to assist in SAR of missing at risk female from San Diego missing since last Sunday. Resources requested include: Helicopter support, cadaver and scent dogs. The Cal OES Law Enforcement Duty Officer is coordinating the resources.

CAL OES DEPLOYMENTS

EMAC Colorado (No Change)

2014-SOC-2101 California deployed a Recovery Specialist, Clyde Muraoka, to Colorado as requested via EMAC #510-RR-2388 to assist in flood recovery operations. The coordination process is complete. Personnel have arrived safely and reported for assignment. The deployment began on 2/09/14 with a confirmed demobilization date of 3/12/14.

Drought 2014 Incident (No change)

February 19: Lidia Armas (Emergency Services Coordinator for Individual Assistance) has been deployed to Salinas for a California Department of Food and Agriculture / United States Department of Agriculture (CDFA / USDA) drought meeting. Anticipated return: February 20.

February 20: Theresa Gonzales (ESC for IA) returns from Southern California on 2/20 and then will immediately drive to Fresno for a CDFA /USDA drought meeting. Anticipated return: February 21.

CAL OES DEPLOYMENTS (Con't)

Training (No change)

February 19: Mary Ann Johnson (Senior ESC for IA) and Theresa Gonzales (ESC for IA) have been deployed to Glendale in So Cal as CSTI Recovery course instructors. Anticipated return for Mary Ann: February 19, 2014. Anticipated return for Theresa: February 20, 2014.

UPCOMING EVENTS, TRAINING, EXERCISES

Diablo Canyon Power Plant, Rehearsal / Full Scale Exercise

Diablo Canyon Power Plant in San Luis Obispo will be hosting two full scale Hostile Action Based exercises this Spring. A dress rehearsal exercise will be held on April 16, 2014 and a FEMA evaluated exercise will held on May 21, 2014. This is part of the required biennial demonstration of our ability to protect the public from a radiological incident at the nuclear power plant.

2014 Golden Guardian

Planning is currently underway for the Governor's 2014 exercise series. The series will test the *California Cascadia Subduction Zone Earthquake and Tsunami Response Plan* developed by FEMA Region IX and Cal OES

- Logistics Tabletop Exercise - March 5, 2014
- Logistics Rehearsal of Concept Drill - April 2, 2013
- REOC Communications Functional Exercise - March 27, 2014

The Tsunami Warning Communications Test

Live code, activating EAS will be on the North Coast in Del Norte, Humboldt, Mendocino Counties on Wednesday 3/26/14 (between 11:00 and Noon PDT).

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
